QUICK START GUIDE:

1. Remove the top of the banana and screw your cartridge into the 510 thread.
2. Click the button 5x to turn the Peel on.
3. Click the button 3x to adjust the voltage. The ring around the screen will change color.
4. Click the button 2x for Prep Mode. This runs for 15 seconds at 1.8V and clears any clogs in your cartridge.
5. Press and hold the button to take your hit. The banana on the screen will flash.
6. While you're vaping, the voltage screen will change to a stopwatch that times your hit. Each inhale maxes out after 15 seconds.
7. The Peel will turn off automatically after 10 minutes of inactivity, or click the button 5x to shut it off manually.

UNDERSTANDING YOUR PEEL VAPE:

TIMER
